

The Office of Congresswoman Gabrielle Giffords and  
Pima County Public Library  
*present*

# **Solar Power 101**

## ***A Community Education Series on Solar Energy***

### ***The Basics of Solar Photovoltaic***

George Villec from Geolnnovation will give a detailed overview of residential solar photovoltaic systems, what it costs, and who should go solar.

### ***The Basics of Solar Hot Water***

Katharine Kent from the Solar Store will present on solar hot water systems, the types available for the home, how they work, and how they save on energy.

### ***Energy Efficiency***

Denise Smith from Tucson Electric Power will discuss the new energy efficiency programs that TEP will be launching this spring and how customers can take advantage of these to conserve energy and save money.

**Wednesday, February 23, 2011, 6-8 p.m.**

**Murphy-Wilmot Branch Library**

530 N. Wilmot Road, Tucson

Between Broadway and 5th Street on the east side of the street

Space is limited for this presentation
